Introduction to 210-065 Exam on Implementing Cisco Video Network Devices

A great way to start the Cisco Certified Network Associate Collaboration (CIVND) preparation is to begin by properly appreciating the role that syllabus and study guide play in the Cisco 210-065 certification exam. This study guide is an instrument to get you on the same page with Cisco and understand the nature of the Cisco CCNA Collaboration exam.

Our team of experts has composed this Cisco 210-065 exam preparation guide to provide the overview about Cisco Implementing Cisco Video Network Devices exam, study material, sample questions, practice exam and ways to interpret the exam objectives to help you assess your readiness for the Cisco CIVND exam by identifying prerequisite areas of knowledge. We recommend you to refer the simulation questions and practice test listed in this guide to determine what type of questions will be asked and the level of difficulty that could be tested in the Cisco CCNA Collaboration certification exam.

Cisco 210-065 Certification Details:

Exam Name	Implementing Cisco Video Network Devices
Exam Number	210-065 CIVND
Exam Price	\$300 USD
Duration	75 minutes
Number of Questions	55-65
Passing Score	Variable (750-850 / 1000 Approx.)
Recommended Training	Implementing Cisco Video Network Devices, Part 1 (CIVND1) Implementing Cisco Video Network Devices, Part 2 (CIVND2)
Exam Registration	<u>PEARSON VUE</u>
Sample Questions	Cisco 210-065 Sample Questions
Practice Exam	Cisco Certified Network Associate Collaboration Practice Test

Cisco 210-065 Exam Syllabus:

Section	Weight	Objectives
Video Concepts	21%	1 Describe the functional components of video solutions a) Provisioning and scheduling Management b) Video compositing c) Streaming video d) Recording and storage e) Media players f) Media convergence g) Media managements h) Video convergence
Endpoint Configuration	32%	1 Describe video product models a) Mobile devices b) Desktop systems c) Multi-purpose systems d) Surveillance cameras and encoders e) Immersive systems f) Peripherals and add-ons g) Cabling connections h) Digital media players 2 Describe environment recommendations a) Room lighting recommendations b) Room acoustics recommendations c) Room power recommendations d) Room HVAC recommendations e) Room materials (windows, floor material, wall material, etc.) f) Room size and background wall g) Viewing distance h) Physical security recommendations 3 Implement desktop endpoints and surveillance cameras a) Network settings b) GUI interface and CLI c) Control plane d) Cables e) Test call f) User acceptance test g) Microphone calibration h) Camera calibration i) Media playback on PCs 4 Describe features and functions a) Auto collaboration b) MCU capabilities versus TelePresence Server c) Audio add in d) PIP e) FECC f) Resolution setting g) Multi way vs multi-site

Section	Weight	Objectives
Troubleshooting and Support	31%	1 Describe troubleshooting methodologies 2 Identify endpoint issues a Cabling b Peripherals c Network connectivity d Registration e Call setup f Media quality g Mid call feature issues 3 Collecting system information a Logs b Status 4 Manage configuration a Backups b Restore c Reset to defaults d Password recovery 5 Implement key CLI commands 6 Monitor events and alerts
Conferencing Concepts	10%	1 Describe multi-point control units 2 Describe conferencing features a Switching and layout options b Cascading c Conferencing add-ons 3 Describe scheduling vs adhoc vs on demand features

210-065 Sample Questions:

01. Which Cisco product is a hardware-based Cisco Digital Media endpoint?

- a) Cisco TelePresence System EX90
- b) Cisco DMM
- c) Cisco IP Phone
- d) Cisco DMP

02. On which central control element is Cisco Unified Communications based?

- a) gateway
- b) endpoints
- c) applications
- d) call and session control

03. Which Cisco Unified IP phone can be ordered only with an external Cisco Unified Video USB Camera?

- a) Cisco Unified IP Phone 8900 Series
- b) Cisco Jabber client
- c) Cisco Unified IP Phone 9971 Series
- d) Cisco IP Video Phone E20

04. Which two features do the Cisco Jabber Video for TelePresence enterprise client support?

(Choose two.)

- a) ISDN
- b) 720p30
- c) H.323
- d) CTI
- e) Cisco TelePresence Multiway

05. What is Cisco TelePresence WebEx One Touch?

- a) the core conference module of Cisco WebEx
- b) the integration of Cisco TelePresence and Cisco WebEx scheduling
- c) a Cisco WebEx conference module for remote support
- d) the integration of Cisco TelePresence with third-party scheduling

06. Which high-definition interface does a Cisco DMP provide to connect to endpoints?

- a) DVI
- b) HDMI
- c) VGA
- d) SCART

07. An engineer is creating a system backup on a Cisco VCS. Which two options describe characteristics of Cisco VCS backups?

(Choose two.)

- a) The backup can be sent to the remote SFTP server.
- b) The backup can be encrypted with a password.
- c) The backup can be sent to additional servers in the cluster.
- d) The backup is valid for 30 days.
- e) The backup is stored in Cisco TMS.
- f) The backup is only downloadable locally.

08. How does a Cisco TCS process incoming video calls?

- a) Recording Alias > Template > Media Server Configuration
- b) Recording Alias > Media Server Configuration > Template
- c) Recording Alias > Media Server Configuration > H.323 > Template
- d) Recording Alias > Workflow > Template > Media Server Configuration

09. TC software-based endpoints can be backed up using which of the following options?

- a) OSD
- b) SCP
- c) FTP
- d) CLI

10. When can the Setup Wizard be used on the CTS 500-32 endpoint?

- a) During the first-time boot or after the endpoint is reset
- b) During the first 60 seconds after the endpoint has booted
- c) Any time
- d) Any time after the endpoint is registered to the Cisco Unified CM

Answers to 210-065 Exam Questions:

Question: 01 Answer: d	Question: 02 Answer: d	Question: 03 Answer: c	Question: 04 Answer: b, e	Question: 05 Answer: b
Question: 06 Answer: b	Question: 07 Answer: b, f	Question: 08 Answer: a	Question: 09 Answer: d	Question: 10 Answer: a
